Indoor and outdoor events, which adhere to the following Caltech-specific guidance, may be held on the Caltech campus.

Please note that these guidelines, which are aligned with local public health orders and requirements, are subject to change based on updates to local public health requirements, government regulations, and the Institute’s protocols and policies.

**Indoor Events**
- All attendees are required to wear a face covering indoors.
  - Individuals may remove their face covering when eating.
- Attendance may not exceed the established occupancy limits for any particular event space.
- Please note: Additional guidelines or requirements that are specific to Caltech’s public event venues and auditoriums may be implemented. Any specific requirements will be communicated to attendees in advance of the event.

**Outdoor Events**
- Face coverings are recommended, but not required, as a protective layer for all attendees who are not fully vaccinated. County public health officials have advised that individuals who are not fully vaccinated take additional precaution and consider the use of face coverings in large gatherings and environments where physical distancing is limited.
- Attendance may not exceed the established occupancy limits for the event space.

**Offsite Events**
- Caltech-sponsored events held at an offsite location, are required to adhere to the public health protocols and requirements of the venue and event location.
